FRENCH COURT PROCEDURE IS NOT LIKE OURS

(By Associated Press)
VERSAILLES, Dec. 16.—Americans who attended the Landru trial, and they were many, could not refrain from commenting upon the radical difference between the French law of evidence and the American courts.

Returning to Paris after a particularly stormy sitting of the court, an American resident of the French capital, noticed a stout man alighting at Meudon, in deep conversation with a woman.

"Why, there goes one of the jurists!" he exclaimed.
Jurors in France are not escorted by uniformed policemen and every night they return to their homes in complete freedom having taken the oath "not to discuss the case with any one." They are chosen with more rapidity than in either America or England.

The prosecution and the defense have 12 preliminary challenges each and no more. Thus 24 names chosen from the electoral list of the department are thrown into a hat and 12 are picked out. Should the prosecution and the defense both choose to exercise their prerogative of challenging 12 jurors, there always remains enough names in the hat to swear in a jury. The Landru jury was chosen in 15 minutes. Neither the prosecution nor the defense challenged a single juror.

SISTER WINS FROM BROTHER IN ELECTION

(By Associated Press)
SALT LAKE CITY, Dec. 16.—Miss Steen Scrup, a high school English teacher, who recently defeated her brother P. C. Scrup for the post of mayor of Salina, Utah, declared she intends to advocate good roads and an improved water system.

Miss Scrup said she did not want to win the election but her brother is glad he lost and was the first to congratulate the new head of the city government.

"I did nothing to bring about success for my race for the mayorship," Miss Scrup said. "I even campaigned for my brother." In spite of this the brother was defeated by fourteen votes.

Miss Scrup was born at Salina and has taught school there for fifteen years. She said she always considered it a citizen's duty to accept nomination for public office and decided to accept the nomination offered her because she thought it was her duty to do so and also because she felt her acceptance would at least add variety and novelty to the life of the town.

UNEMPLOYMENT IN CALIFORNIA ON INCREASE

(By Associated Press)
SAN FRANCISCO, Dec. 16.—Unemployment in December shows an increase over November in California, Oregon and Washington. J. A. Kelly, district director of the employment service of the United States Department of Labor said in his December report made public here today.

"Unemployment is due chiefly to cessation of seasonal activities," the report said. "Some fruit crops in certain districts are yet to be harvested. Agriculture, excepting fall plowing, is at an end. Housing shortage still exists, although building industry shows a marked activity. Lumber has shown some improvement in the northern part of the district but is yet far below normal. Shipbuilding practically at a standstill. Iron and steel trades very dull. Much unemployment among skilled labor. Approaching holiday season has, in a measure, stimulated retail trade. Food stuff manufacturers are operating to capacity. Textile mills in excellent shape, particularly western, some of which are operating double shifts."

ARMENIANS WON'T TRUST TURKS YET

(By Associated Press)

CONSTANTINOPLE, Dec. 16.—Disfranchisement of the minority guarantee, provided for in the Franco-Turkish agreement, tens of thousands of Christians are leaving Cilicia, as, after the departure of the French, Turks began recruiting troops in the area evacuated by the French. Hundreds of wealthy families are already emigrating to Cyprus and Egypt, while poorer classes are awaiting transport facilities at Mersina.

The Armenian Patriarch has officially requested the British High Commissioner to advise his government to permit the emigration of Cilician Armenians to Mesopotamia.

CENTER OF METAL MINING IN NEBRASKA

The fact that the center of the metal industry is nearly as far east as Lincoln, Nebraska, will surprise many mining men who have always considered it as being located somewhere in one of the large metal-producing States of the far west, such as Arizona, Montana, or Idaho. It should be remembered, however, that the center of industry is drawn toward the East by the large number of men employed in the iron mines of Michigan, Minnesota, New York and Alabama, the copper mines of Michigan, the lead and zinc mines in the Mississippi Valley States, and the many miscellaneous mineral mines of the Appalachian Mountain section of the country.

CALIFORNIA SHIPS COTTON TO CZECHS

(By Associated Press)
BAKERSFIELD, Dec. 16.—Kern county, California, is shipping cotton to Czechoslovakia. A shipment of 150 bales was recently dispatched under arrangements with government aid that the high quality cotton be sent into central European countries. Impoverished by the war, to be made into expensive cloths and laces and distributed to world markets. Growers will not be paid until these laces and cloths are sold, but the war finance board will finance the growers by extending loans on the shipments.

JOB WORK AT THE BONANZA

Burglars Don't Seek the Light!

Darkness is their stock in trade. They work by stealth—unheard and unseen—their movements cloaked in secrecy. It's honest folks that see the light. They are the only ones who can risk it.

It's the same way in business. The merchant who is not sure of his goods does not dare to advertise. Advertising would hasten the end of his business career—put him to a test he could not meet.

The merchant who advertises, deliberately invites your inspection. He tells you about his product and then lets it stand on its own merits. You can depend on him. He knows his product is good.

That's one reason why it pays you to read the advertisements in THE BONANZA. It is through advertising that you are able to keep in touch with the good things that progressive business houses are spending their money to introduce and keep before you.

Advertisements are interesting, instructive and profitable. They throw a powerful light on the very things that concern you most. READ THEM!
